DESCRIPTION FOR APP DEVELOPER

We need a complete **Hardware & Inventory Management module** with the following features:

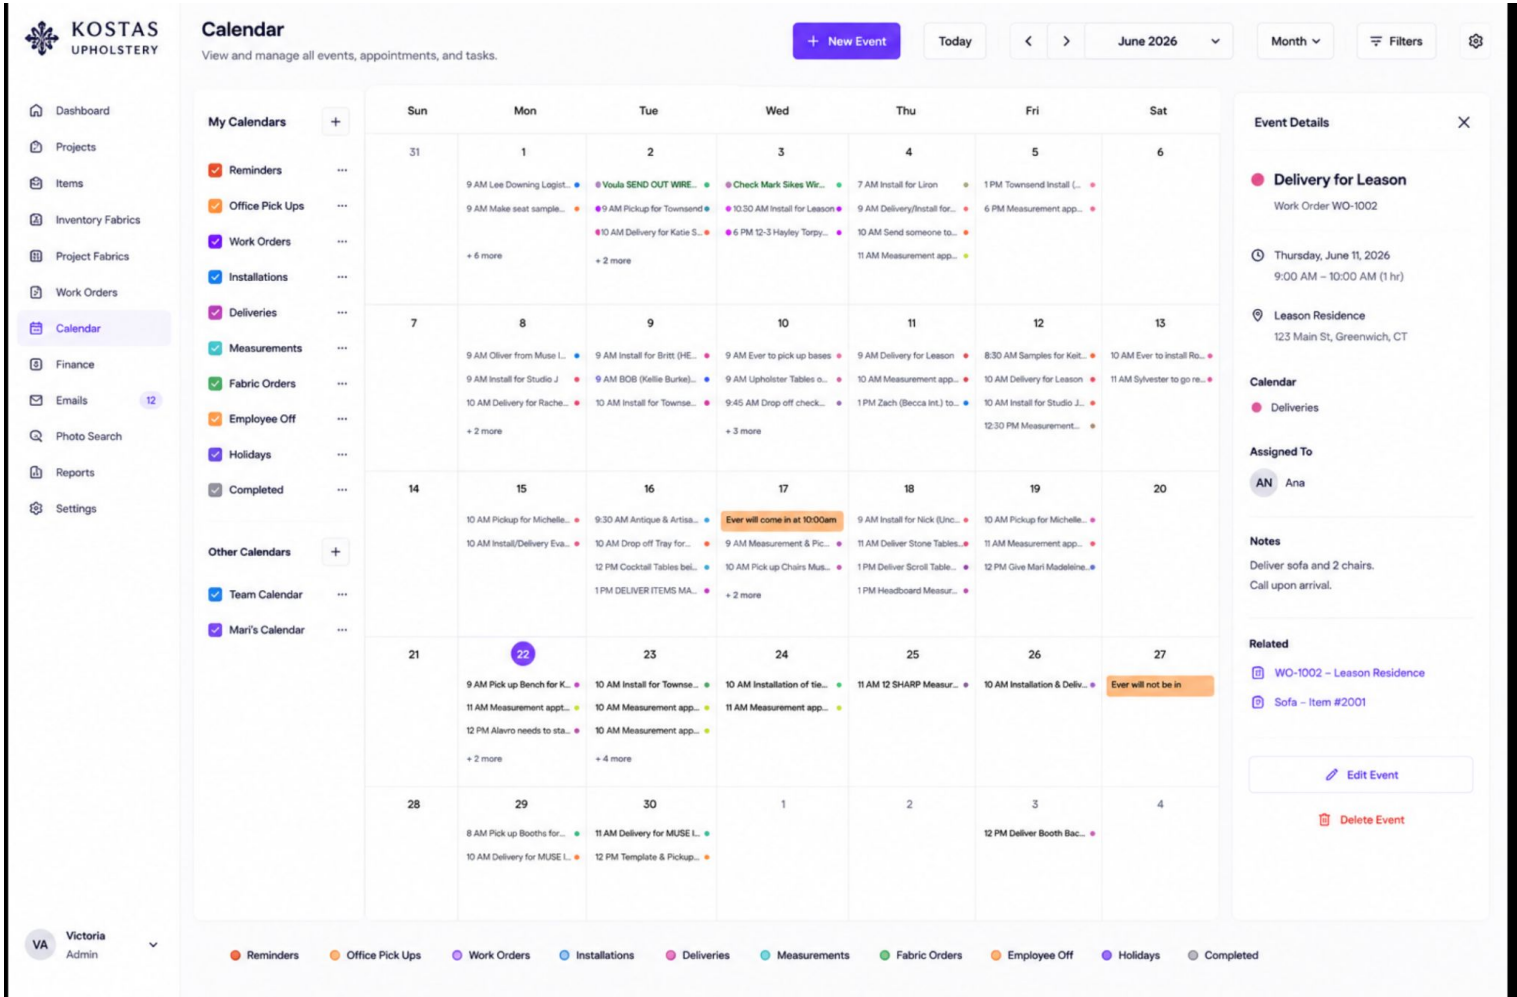

1. **Inventory Categories**
   - Fabric Inventory
   - Foam & Upholstery Materials
   - Hardware & Installation Inventory
2. **Hardware Inventory**
   - Item name, SKU/Part #, category
   - Warehouse location (Warehouse, Aisle, Shelf, Bin)
   - Quantity in stock, minimum stock level
   - Status indicator (In Stock, Low Stock, Out of Stock)
   - Cost and last restocked date
3. **Project Reservations**
   - Reserve hardware for specific projects
   - Track quantity reserved, used, and remaining
   - Prevent over-allocation of stock
4. **Install Kit / Checklist**
   - Create installation checklists for each job
   - Mark items as packed/used
   - Ensure nothing is forgotten before installs
5. **Low Stock Alerts**
   - Automatic alerts for items below minimum
   - Visible on dashboard for office and employees
6. **Warehouse & Location Management**
   - Multiple warehouses
   - Aisle, shelf, bin tracking for exact location
7. **Barcode/QR Code Support**
   - Scan items when taking, returning, or receiving
   - Keep inventory accurate in real time
8. **Purchase Orders**
   - Generate POs directly from low stock items
   - Track order status and received quantities
9. **Bilingual Support**
   - English for office users
   - Spanish for shop employees

The interface should be clean, easy to use on desktop for office staff and on mobile for employees in the shop and in the warehouse.

Hi Victoria,

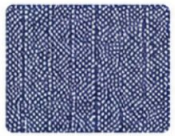

We love the fabric and would like to move forward with it for the sofa.

Can you make the seat cushions a bit firmer as we discussed?
Also, please confirm the delivery and installation timeline.

Thank you!

John Smith
123 Bay Lane
Tampa, FL 33609
